

NEOBIOTA 2012

Halting Biological Invasions in Europe: from Data to Decisions

7th European Conference on Biological Invasions

Pontevedra (Spain), 12-14 September 2012

VENUE

Pazo da Cultura de Pontevedra

Rúa Alexandre Bóveda s/n
36005 Pontevedra

Pontevedra is a fluvial city situated next to the sea, a capital that receives the inland mountains and the wonders of the Ría of Pontevedra and the Ría of Arousa. Situated at the core of the Rías Baixas, 30 minutes away from Santiago de Compostela, Pontevedra is a privileged place to spend few days during a visit to Galicia, avoiding the rush hours of the most visited places. The city is historically famous, culturally rich and has a significant number of architectural attractions worth seeing and a very well preserved medieval town centre. Surroundings are littered with beaches and many other natural beauties, among them the Atlantic Islands of Galicia National Park.

THEME AND BACKGROUND

The progressing and escalating threats posed by invasive alien species in Europe suggest that immediate cooperative, specific planning is necessary if we are to have any chance to halt biodiversity loss. Scientific, technical, political and legal actions need to be put in place urgently in order to diminish the ecological and economic impacts of biological invasions.

In this framework, NEOBIOTA 2012 will provide an international high-level forum to incorporate research into decision making processes and management of invasive alien species. NEOBIOTA will constitute an important opportunity to advance the dialogue and strengthen cooperation between the scientific community, conservation agencies, stake-holders, and policy and decision makers.

Researchers, representatives from governmental entities, non-profit organizations, and any person or party involved in biodiversity conservation and natural resource management are invited to participate and share ideas, new results and opinions in the field of biological invasions.

CONFERENCE TOPICS

- Impacts of biological invasions
 - Impact on ecological processes and on functional diversity; native species and communities
 - Impacts on economy and health (plants, animals and humans)
- Management of biological invasions
 - Prevention and early detection
 - Mitigation and control
 - Prioritization of species and pathways
 - Public perception and communication of the risks associated to biological invasions
 - Policy and legislation

- Ecology of biological invasions
 - Biological invasions under climate change
 - Temporal and spatial trends
 - Biotic and abiotic control of alien species
 - Modeling populations of alien species
- Evolution of biological invasions
 - Genetic variation of alien species
 - Local adaptation of alien species
 - Hybridization and invasion
 - Founder and Allee effects in alien species

All organisms and ecosystems will be considered

KEYNOTE SPEAKERS

Darren Kriticos

CSIRO Ecosystem Sciences. Canberra, Australia.

David M. Richardson

Centre of Excellence for Invasion Biology, Stellenbosch University. Stellenbosch, South Africa.

Gregory Ruiz

Smithsonian Environmental Research Center. Edgewater (Maryland), USA.

SCIENTIFIC COMMITTEE

Laura Capdevila-Argüelles

GEIB, Grupo Especialista en Invasiones Biológicas. León, Spain.

Emili García-Berthou

Institute of Aquatic Ecology. University of Girona. Girona, Spain.

Piero Genovesi

ISPRA (Institute for Environmental Protection and Research), Rome, Italy.

Stephan Gollasch

GoConsult, Hamburg, Germany

Phil Hulme

Lincoln University. Canterbury, New Zealand.

Johannes Kollmann

Restoration Ecology, Technical University Munich. Freising, Germany.

Ingo Kowarik

Institute for Ecology, TU Berlin. Berlin, Germany.

Darren Kriticos

CSIRO Ecosystem Sciences. Canberra, Australia.

Ingolf Kühn

Helmholtz Centre for Environmental Research – UFZ. Halle, Germany.

Wolfgang Nentwig

Zoological Institute, University of Bern. Bern, Switzerland.

Petr Pyšek

Institute of Botany, Czech Academy of Sciences. Průhonice, Czech Republic.

Wolfgang Rabitsch

Umweltbundesamt, the Austrian Federal Environment Agency. Vienna, Austria.

David M. Richardson

Centre of Excellence for Invasion Biology, Stellenbosch University. Stellenbosch, South Africa.

Gregory Ruiz
Smithsonian Environmental Research Center.
Edgewater (Maryland), USA.

Montserrat Vilà
Estación Biológica de Doñana (EBD-CSIC).
Sevilla, Spain.

Víctor Ángel Suárez Álvarez
GEIB, Grupo Especialista en Invasiones
Biológicas. León, Spain.

Bernardo Zilletti
GEIB, Grupo Especialista en Invasiones
Biológicas. León, Spain.

ORGANIZING COMMITTEE

Laura Capdevila-Argüelles
GEIB, Grupo Especialista en Invasiones
Biológicas. León, Spain.

Montserrat Vilà
Estación Biológica de Doñana (EBD-CSIC).
Sevilla, Spain

Emili García-Berthou
Institute of Aquatic Ecology, University of
Girona. Girona, Spain.

Bernardo Zilletti
GEIB, Grupo Especialista en Invasiones
Biológicas. León, Spain.

Víctor Ángel Suárez Álvarez
GEIB, Grupo Especialista en Invasiones
Biológicas. León, Spain.

HOST INSTITUTION

GEIB Grupo Especialista en Invasiones Biológicas

CALL FOR ABSTRACTS

We are looking forward to receiving contributions for talks and poster presentations. Participants planning to give a talk or poster presentation are asked to submit an English abstract no later than **31 May 2012** to the conference office, by e-mail to neobiota2012@gmail.com, as an attached Word document.

Please see the “Abstract contribution” section at the conference website.

Background information, a draft programme, and registration information will be sent out shortly at the conference website <http://eci2012-neobiota2012.blogspot.com>

For questions you can contact the NEOBIOTA 2012 Conference Secretariat neobiota2012@gmail.com

NEOBIOTA 2012 is carried out under the patronage of the ISSG/IUCN and the Bern Convention
